

## CROSSROADS COMMUNITY PROJECT

We so often disregard things that are empty as useless or trash, however that emptiness implies a need that was met, the cereal box is empty but that means we were able to eat, the toothpaste is gone but we have clean teeth. During this time of the year and definitely in the situation we find ourselves in we should be reminded of the emptiness of the tomb and the need that was met. The tomb is empty and now Jesus is King and reigns over all things meeting our need for a savior that is powerful enough to heal and transform the deepest parts of our being. During this week when you empty that box of cereal or use up the last bit of toothpaste, take a moment and thank God for the empty tomb and the Take a picture of your empty containers and post those pictures on our Crossroads Facebook private group to help remind each other that the tomb is empty.
